MyAC - Jira Migration Plan

Migration Specs: - **MyAC Mobile-Migration Specs-V1.xlsx**

Migration Roadmap: https://btsjira.abbvie.com/secure/PortfolioPlanView.jspa?id=121&sid=135&vid=503#plan/backlog

Project Owner: Daniel John

Scrum Master/Project Manager: Katie Weiland

Technical Lead: Nicolas Michaud

Jira Admin: Ravi Kumar, Tamil Selvan

Agile Coach: Sharad Julka

Source: GDCA

Target: OMYACM, OMYACW and OMYACD

Scope: Migration of all active and three months of historical data (Closed and cancelled issues) from Ent Jira GDCA project to Ent Jira OMYACW and OMYACM Jira projects including team access / AD group creation, and associated training on Jira Ways of Working.

Assumptions:

- Availability of MyAC teams to deliver on required tasks as outlined in Advanced Roadmaps timeline.
- No change in scope related to provided analysis by MyAC team including historical data migration parameters.
- Enterprise DevOps Standards are followed (workflows, custom fields, etc)

Exclusions (additional projects to follow):

- Transition to E2E DevOps SLC policy (IT09.01.020).
- Integration with DevOps tools including but not limited to qTest and Copado.
- Creation and integration with Confluence SLC space.
