GCD Consolidation Capability

GCD Consolidation Capability utilizes Palantir Foundry and Power BI to accomplish the key objectives:

1. Enable easy forecast submission from models for portfolio aggregation
2. Add analytical features in existing models to support scenario management and more robust analytics
3. Create automated and interactive reports for leadership reviews

Project Summary

Product	**GCD Consolidation Capability**
Scope	**Jira / Confluence / Agile Coaching / qTest**
Product Owner	Robert Futty
Customer Lead	Karthik Somu
BTS Project Lead	Katie Weiland
Jira Project Link	
DevOps Engineer(s)	Sunita Jesani - Jira Admin
SQA	n/a - Non-GxP
QA Lead	
Target Start Date	
Target End Date	03 Oct 2022
Status	In Progress
Status Remark	

Team

Email	511	Role
